Bernard Tonks

Bernard is a Physiotherapist who graduated from the University of Toronto in 1986. He has extensive experience in neurological rehab and orthopaedics. Since 1993, he has worked in private practice and in 1997 became a Fellow of the Canadian Academy of Manipulative Therapists.

He has completed numerous courses in Vestibular Rehabilitation and in 2001, completed a competency based certification course in Atlanta, Georgia. He has been treating clients with vestibular dysfunctions since 1995. Since 2000, he has instructed courses in vestibular rehabilitation throughout Canada as well as internationally.

Advanced Vestibular Rehab course

This course is appropriate for therapists who have taken an introductory course and have had experience assessing and treating clients with vestibular disorders.

Course Content:

Enhanced assessment techniques and treatment strategies for BPPV, UVL and BVL clients.

Pathophysiology of selected otologic and non otologic causes of dizziness not reviewed in detail during the introductory course. Central dizziness such as visual-vestibular mismatch, MAV, CPV, CPN. Peripheral vestibular disorders such as SCD, Meniere's disease and pressure sensitive pathologies

The role of vestibular rehab in the management of Post Concussion Syndrome will be discussed

The role of vision screening and vision therapy will be presented with practical time scheduled

Videos of nystagmus and oculomotor findings

A variety of case studies will be presented

Assessment of patient(s) may be possible

Review quiz
